# Beautiful Iris

There are thousands of named varieties of Irises, each differing from all the others. There are all the colors of the Rainbow in a multitude of tones and shades and tints and hues and gradations of Pink, Lavender, Yellow, Blue, Purple, White and Red in unending combinations. Irises have colors, forms and fragrances to delight and satisfy even the most critical flower lover. "Even Solomon in all his glory was not arrayed like one of these." It seems that words fail to adequately describe the regal, fascinating beauty of the Iris. The Iris will dress any Garden with high distinction. Its graceful blooms are suited to decorate with loveliness any room in any home no matter how refined and aristocratic. An Iris flower stem chosen for its grace and color, may be placed in a tall vase; a half dozen or a dozen in a larger vase; or an armful, well spaced, in a jardiniere. All forms of display are effective. Either blooming in the garden or cut for bouquets the Iris is supreme. The branching habit of the flower stalk brings out the individual beauty of each bloom. In bouquets, when a blossom wilts, simply remove it from the stem. All buds will open, keeping the bouquet in fresh appearance for a week often days.

Planting Irises is one sure way to increase the attractiveness and sales value of your home. Irises will thrive and bloom in any soil and in any climate. In planting Irises, let the top of the bulb be on the level with the surface of the soil. The soil should be firmed around the bulb.

Believing that you, too, will love the Iris, the most heavenly of all the flowers, we offer the following list of varieties at very attractive prices. We have many other varieties which will be listed in our next circular. Always glad to quote quantity prices if you desire them for mass planting or for resale.

Rating		Each	Per 3
63	A. E. Kunderd. Bronzy yellow, Magenty	\$ .30	.75
83	Afterglow. Pinard yellow. Very popular	.30	.75

The most valuable dollar collection in the world. One plant each of Her Majesty, Princess Beatrice, Aurea, Isolene, Kochi, Leopold (early dwarf), Emperor, Jacquesiana, Ingeborg Johan De Witt, surely a selection of pleasing and varying colors.

Can send you 100 Mixed Iris for \$3.50. They will please you.

All plants are post paid to your mail box. You know just what they will cost you. Iris can be planted Spring, Summer or Fall. We have a score of varieties of Japanese Irises ranging in price from 25 cents to \$2 each.

## Delirious Strawberries

The very best Strawberries are grown on the home grounds by the home folks. There is nothing that can be grown in the garden or field that will give so much good eating, pleasure and profit for the ground occupied, and the effort expended, as Strawberries. There is nothing quite like picking Strawberries from your own vines. The Strawberry will grow anywhere in the world where other farm and garden crops will grow.

**THESE HINTS** will guide you to Success with your Strawberry plants. When your plants are received, open the package and if the roots seem somewhat dry, moisten the roots with water. Do not wet the leaves. Get the plants set in the ground as soon as possible. The right depth for setting Strawberry plants is that in which they grew before being dug: the stems and leaves entirely in the air, the roots entirely in the soil, and the crown or neck of the plant on a level with the surface, the soil firmly pressed against the roots. Never let weeds and grass grow among your Strawberry plants and they will produce delicious berries two or three years for you. One hundred plants will set one row 100 feet long, or 4 rows 25 feet long. The Strawberry is the "Queen" of home fruits.

Plant during last week in September and during October or in early Spring. If set in the fall, the plants should be mulched—covered out of sight with barnyard manure, potato or tomato vines—or they may be covered with a shovelfull of soil. The plants should be uncovered when the warm spring weather comes.

The best varieties are Premier, Boquet, Bliss, Big Joe, Gandy, Aroma, Dunlap, Table Queen, Wm. Belt, 50 plants, 60 cents; 100 plants, \$1; 1000 for \$8. Progressive and Champion Everbearers 50 plants, 75 cents; 100 for \$1.25. Mastodon Everbearer, 50 plants 90 cents; 100 for \$1.50. Co'umbian Purple Raspberry plants 25 for \$1.50 for \$1.50; 100 for \$2.50; 1000 for \$18. Black Raspberries, and Cuthbert and June Red Raspberry plants same prices as for the Columbians. Washington Asparagus, strong one year plants 100 for \$1.10 1000 for \$9

## FLOWERING PLANTS

Building up our own gardens we have growing a small surplus of the hardy shrubs, roses and perennial plants which we can share with our customers at moderate cost.

Achillea (The Pearl), Canterbury Bells, Pink, White, Coreopsis, Chrysanthemums, Red, White, Pink, Yellow, Delphiniums, Gaillardia, Hemerocallis, Oriental Poppy, Manarda (Oswego Tea), Primrose (Early Yellow), Phlox, mixed, Shasta Daisy, Sedum (Pink) A good plant of any of the above list, 20 cents, 3 for 50 cents.

Peonies, are 30 cents to \$1 each. Doronicum 30 cents each. Chinese Primrose, (yellow flowered border plant) 30 cents per dozen. Roses 30 cents to \$1 each. Dahlias, mixed 10 cents each, others 20 cents to \$1 each. Gladiolus, mixed 40 cents per 12. Named varieties, 10 cents to \$1 each. Tulips for fall planting. \$3.25 per hundred. Write your wants and I may be able to save you some money.

## A. B. Katkamier, - Macedon, N. Y.

Residence and Gardens at Farmington village. — From Pittsford-Palmyra State Road, turn south at Chimney Corner just west of Macedon village, proceed to the Quaker Church, turn west  $\frac{1}{3}$  mile to Gardens. From Rochester-Canandaigua road, turn north at Dead Man's Curve, proceed to Gardens  $\frac{3}{2}$  miles.
